

Talk It Over

McLane at the Movies

Week #6 - Avengers Endgame

August 10 & 11, 2019

Introduction

Jesus had a mission that is found in John 10:10. It says I came to give you life and give it abundantly. He obviously wants us to live on a level beyond what the world can offer. He calls us to follow Him and then encourage others in that way as well. This is our "endgame."

Warm-up Question

In what ways do you find that your life could be better than it is? How does your life change when you begin to orient yourself with Christ and think of others more instead of your own gain? Give an example if possible.

Read: Romans 12

Discussion questions

1. In the movie, the Incredible Hulk says: "I was created to do this." After reading Romans 12 and hearing about gifts, consider someone in your life that has been a clear example of being gifted and then using their gift for God. Take a moment and share about that person.
2. What is the result of individuals coming together in love and being a team? Consider how this applies to a small group. Use the example of one of your members having a health need or a need in their home such as repairs or upkeep.

Application

1. Have you ever taken a gift assessment test? You may go to our website and find one under the "serving" tab. That will help direct you in discovering and using your gifts properly.
2. Discuss an opportunity that your group may take to come together and assist someone in need. Make a plan to be a team and help them.

Moving Forward

Talk as a group about McLane at the movies and take a moment to discuss what your favorite movies were as well as the lessons that you remember and will never forget. How can you keep this series going beyond the series in your life?
